

SEASON 2026 NEW PRODUCTS

Private Label by
Quality Works

The background image shows a modern, two-story house with a prominent stone wall on the ground floor and large glass windows above. The house has a dark, gabled roof. In the foreground, there is a swimming pool with a wooden deck and some outdoor furniture. The sky is blue with some clouds.

Not just another Private Label Programme

Our aim is to support retailers worldwide with a private label programme that empowers and enables them to remain relevant and stand out in an increasingly crowded marketplace. Our ambition is not to produce products that are “as good as”, but to meet and exceed the product and design quality as well as the value to quality ratio available through other channels.

Our support does not end with the physical product, but extends to sales and marketing support. We have a large library of location and studio photography as well as line drawings available at no cost and can, for a small fee, produce custom catalogues, tear sheets, marketing videos etc.

In simple terms, our mission is to enable any retailer to have a private label offering where the branding, packing and marketing materials are of a high quality and can be customised to the retailer's needs.

Founded by a 6th generation furniture maker, we pride ourselves on the craftsman heritage of our company. A heritage that comes with a pledge to strive for immaculate craftsmanship and sustainability in every product we produce. For us, true sustainability covers the complete product lifecycle from a timeless design that will stand the test of time, to the use of wood from sustainable sources, to quality craftsmanship.

2026 NEW
COLLECTIONS

CARLA ALU

KRIS ALU

ELLA ALU

OPTI LOUNGE

CARLA ALU

Experience the epitome of luxurious living with our Carla Alu collection, meticulously designed with Mediterranean and US scales in mind.

Crafted with the simplicity of aluminium, Carla Alu has an almost natural and tactile feel, enhanced by the addition of teak arms and our newly developed range of six different marine-grade flat ropes. The dining and coffee tables are available with a teak top or one of seven different ceramic tops. The dining chairs can be customized with either a teak or aluminium seat.

With a vast array of cushion fabrics and frame finishes to choose from, the Carla Alu collection offers a near-endless degree of customisation.

KRIS ALU

Designed by Christian Skrydstrup Nørgaard

For season 2026, we are thrilled to introduce Kris Alu, a stunning evolution of Kris's original design, now reimagined as a collection of elegant aluminium dining chairs.

Aluminium can sometimes feel too cold in cooler environments or too hot in warmer ones. To address this, we have woven the backrest with Danish cord, providing a comfortable seating experience year-round. The arms of the chairs retain the natural beauty and pleasant touch of teak, adding a touch of warmth and sophistication.

Like all our aluminium products, Kris Alu is crafted with sustainability in mind, using 70% recycled materials.

ELLA ALU

Designed by Povl Eskildsen

Inspired by the iconic geometry of our best-selling Maya dining chair, the Ella Alu dining chairs offer a fresh, modern twist. Crafted from sleek aluminium with elegant teak inlays on the arms, the Ella design reimagines the Maya's timeless appeal while introducing a more organic frame. Retaining the exceptional seating comfort that made the Maya a favourite, the Ella Alu dining chairs combines style and functionality for a truly sophisticated dining experience.

BAYA MACRAMÉ

A new addition for season 2026, our macramé umbrellas add texture, warmth, and character to any outdoor space, creating a cozy and inviting atmosphere.

We offer two macramé options:

1. Umbrellas with a traditional acrylic canopy complemented by a macramé edges and fringes. These umbrellas have a macramé look, yet provide virtually the same level of shade as a traditional all acrylic umbrella.
2. Full macramé umbrella. These umbrella will give you the full resort style macramé look, with a laced shade pattern.

Our macramé canopies were developed as part of an effort to expand our community outreach programme aimed at empowering women in the villages around our factory in Indonesia. The programme involves training women in traditional handicraft and thereby providing them with an income opportunity. Our solution dyed polypropylene macramé yarns has been tested to 3,000 hours of UV exposure.

In an effort to reduce plastic pollution in our environment in general and oceans in particular, our Macramé yarns contain 35% social plastic sourced from the Canadian NGO Plastic bank®.

Plastic Bank is a social enterprise that aims to reduce plastic waste in the environment while also addressing poverty. Plastic Bank's mission is to stop ocean plastic and improve the lives of collector communities. They achieve this by setting up plastic recycling ecosystems in underdeveloped communities, particularly in countries with high levels of plastic pollution. This includes Indonesia. Learn more on www.plasticbank.com.

2026 MATERIAL ADDITIONS

Powder Coating

Our powder coatings are durable, outdoor grade polyester-based finishes that are electrostatically applied to the substrate. Aluminium substrates are chemically pre-treated, while stainless substrates are mechanically and chemically pre-treated.

Bronze

Ceramic

Its ability to withstand the elements and its unique hardwearing and scratch-resistant nature makes ceramic an excellent choice for an attractive, yet low-maintenance table top.

Belgian Grey

Stone Grey

Cushion Fabrics

We offer two constructions in outdoor cushions. Both are engineered in a manner that keeps rainwater from soaking into the cushion fill.

- Back coated fabrics (grade C and D), which are inherently waterproof to over 6000mm/236" of water column.
- Cushions made from uncoated fabrics (grade A and B) are equipped with an inner cover made from a certified PFAS/PFOS free breathable water barrier fabric that is water-proof to 400mm/16" of water column.

Grade A-White
Acrylic

Grade B-Cloud
Acrylic Bouclé

Grade B-Linen
Acrylic

Wicker

All our wickers are man-made, colourfast, UV resistant and recyclable. We use two types of man-made wicker: extruded high-density polyethylene (PE) and braided polypropylene (PP) rope. The wicking properties of polypropylene ensures that the rope, despite its fabric feel, will dry quickly after a downpour.

Linen

Regardless of the wicker used, its application onto any given frame is done by skilled craftsmen.
